GOALS

I am seeking an employment opportunity that will allow me to make use of my current set of skills -- and which will also allow me to grow as a professional.

SUMMARY OF QUALIFICATIONS

- 1.5 years of professional experience delivering production quality code in high-pressure, Agile environments
- Experienced with modern, frontend JavaScript using React, Redux and supporting libraries such as Redux-Thunk and Redux-Saga
- Experience with hybrid mobile-application development using React Native
- Knowledge of JavaScript on the back-end (Node) and cloud computing (AWS, GCP)
- Focused on effective teamwork and communication (written + verbal)

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6), PHP
Markup: HTML5, CSS3
Frameworks, Libraries and Middleware: React, Redux, Apollo, Thunk, Saga, Express
Programming Paradigms: Functional Programming, OOP
Dependency Managers: NPM, Yarn
Cloud Computing: AWS, GCP
Source Control: Git
API: REST
Database: SQL, MongoDB
Unit Testing: Jest
Packagers and Transpilers: Webpack, Babel

PERSONAL PROJECTS

- Created and published hybrid mobile-application (React Native)
- Created karaoke game (React, Pixi)
